

Portfolio Style Guide

Logo

The logo appears as 5em x 5em (80px x 80px). The logo appears only in the top left hand corner of the page. The design includes a dark purple circle with a transparent smaller circle with a dotted background inside. "AJS" is written inside the circle in white font with a light purple outline and an inner shadow.

In dark mode the logo appears with the lighter purple color on the outside, the white/pink color as the dots and the white/pink for the lettering with the dark purple as an outline.

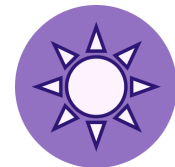

Dark and Light Mode Toggles

When the user is in light mode they should see an icon of size 3em x 3em (48px x 48px). In mobile this size should be 2.8em x 2.8em (44.8px x 44.8px). The switch to dark mode icon features a dark purple circle with a light purple moon inside with a white/pink outline.

The icon for switching to light mode is of the same size and features a white/pink sun with a dark purple outline in a light purple circle.

Colors

 #2D1674	 #FFFFFF
 #9271C2	 #000000
 #FFF2FF	 #110c23 (dark mode background)

Typography

The font for the body is Helvetica and the Welcome font on the home page is Cookie. All body text is set at 1em (16px). The main welcome header is h2 and set at 4.2em (67.2px). Navigation links at the top of the page are set at 1.4em (22.4px). Project

headers are of size h3 and font size 1.3em (20.8px). Buttons on the projects page also have a size of 1.3em.

Mobile

- h3 - 1.2em (19.2px)
- Button - 1.2em (19.2px)

Buttons and Hyperlinks

Navigation links in the top header should display an underline on hover and a dark purple box around them when the user is on the selected page. The logo should return the user to the home page. Buttons that take the user to internal pages should feature rounded corners of size 20px and color #2D1674 with a white font color. On hover, these buttons should switch to a gradient from #2D1674 to white. Buttons that open a new tab should feature the same rounded corners and font color but have a background color of #9271C2. On hover, these buttons should feature a gradient from #9271C2 to white. Buttons that return a user to a previous page should have a transparent background with rounded corners of size 50px. The border and font color of these buttons should be #2D1674. On hover, these buttons should change border and font color to #9271C2.

Dark Mode

In dark mode the background should be #110c23 while the font color should be #FFF2FF. Navigation links should now feature a box of color #FFF2FF when the user is on the selected page. Buttons that take the user to internal pages should be of color #FFF2FF with a #2D1674 font color. On hover, these buttons should switch to a gradient from #FFF2FF to #9271C2. Buttons that open a new tab should be of font color #FFF2FF and have a background color of #9271C2. On hover, these buttons should feature a gradient from #9271C2 to #FFF2FF. Buttons that return a user to a previous page should have a border and font color of #FFF2FF. On hover, these buttons should change border and font color to #9271C2.
